

PATIENT INFORMATION

STRENGTH AND BALANCE EXERCISE PROGRAMME

For Older People to Improve Postural Stability

Name.....

Date.....

Therapist.....

Welcome to the Programme

This booklet has been designed for use with advice and support of a therapist. Your therapist will identify which exercises are appropriate for you.

Benefits of exercise

By maintaining your exercise programme you can improve:

- Balance
- Muscle strength
- Mobility
- Functional Independence
- General fitness and well-being

When and how to do the exercises

You need to do the prescribed exercises at least three times each week. You can divide the exercises up. They do not all have to be done at the same time.

Between each set of exercises take three deep breaths. During the exercises make sure you maintain an upright posture.

SAFETY

Never exercise holding onto an object which may move, for example a chair. Always use the side of something stable like a kitchen work top or solid table unless otherwise instructed.

If illness stops you from maintaining the exercise programme contact your therapist before starting again.

Contact your GP if while exercising, you experience:

- Dizziness
- Chest pain
- Shortness of breath (you are unable to speak because you are short of breath)

After Exercise

You may feel a bit stiff after your first start to exercise. This is quite normal. It is because you are using muscles which may not be used to the exercise. It is important that you keep on exercising. The stiffness will reduce as your body becomes more familiar with the exercise.

Other forms of exercise

Walking is an excellent way to enhance fitness. Your therapist will advise you on a daily activity and walking programme. If you have any questions about the exercise programme please do not hesitate to telephone your therapist.

1. ANKLE MOVEMENTS

- Sit upright in your chair with your back well supported
- Point the foot down then pull the foot back towards you
- Repeat _____ times with each foot

Date	Comments

2. FRONT THIGH STRENGTHENING

- Sit on a chair with your back well supported

Date	Comments

“I’ve had a fall”

“I can get up.....”

Ease yourself up onto your elbows

Move onto your hands and knees.

Crawl to the nearest suitable furniture e.g. bed, firm chair

Hold onto a firm surface to support yourself

Facing the chair ease yourself to a standing position

Turn yourself gently and sit on a firm surface

Always tell your GP or health profession about your fall

“I’ve had a fall”

“I can’t get up.....”

Can I attract someone?

Shout and bang something

Press your pendant alarm or
use the telephone if you can

Can I get comfortable?

Find a nearby pillow or cushion
or used rolled up clothing for a
pillow

Can I keep warm?

Cover yourself with clothing, tablecloth or a rug

Can I keep moving?

Move position to avoid getting pressure sores.

Move your joints to avoid stiffness and help circulation.

Roll away from damp area if your bladder 'lets go'.

Always tell your GP or health profession about your fall

Ward admitted to: _____

Therapy team who treated you: _____

If your symptoms or condition worsens, or if you are concerned about anything, please call your GP, 111, or 999.

Patient Experience

We know that being admitted to hospital can be a difficult and unsettling time for you and your loved ones. If you have any questions or concerns, please do speak with a member of staff on the ward or in the relevant department who will do their best to answer your questions and reassure you.

Feedback

Feedback is really important and useful to us – it can tell us where we are working well and where improvements can be made. There are lots of ways you can share your experience with us including completing our Friends and Family Test – cards are available and can be posted on all wards, departments and clinics at our hospitals. We value your comments and feedback and thank you for taking the time to share this with us.

Patient Advice and Liaison Service (PALS)

If you have any concerns or questions about your care, we advise you to talk with the nurse in charge or the department manager in the first instance as they are best placed to answer any questions or resolve concerns quickly. If the relevant member of staff is unable to help resolve your concern, you can contact the PALS Team. We offer informal help, advice or support about any aspect of hospital services & experiences.

Our PALS team will liaise with the various departments in our hospitals on your behalf, if you feel unable to do so, to resolve your problems and where appropriate refer to outside help.

If you are still unhappy you can contact the Complaints Department, who can investigate your concerns. You can make a complaint orally, electronically or in writing and we can advise and guide you through the complaints procedure.

How to contact PALS:

Telephone Patient Services: 0300 123 1732 or via email at: wah-tr.PALS@nhs.net

Opening times:

The PALS telephone lines are open Monday to Friday from 8.30am to 4.00pm. Please be aware that you may need to leave a voicemail message, but we aim to return your call within one working day.

If you are unable to understand this leaflet, please communicate with a member of staff.
